

GSA Resource

Study advice for research students

If you're struggling with your studies...

- Stop 1 is your one-stop-shop for enrolment queries, and to get started with other general support and advice: <http://go.unimelb.edu.au/n32a>.
- If your research itself is worrying you, review your project with your supervisor. Ask about your options and consider planning a revised submission date while you get the support you need.
- If you have concerns about your candidature, speak to the graduate research advisers in your faculty: <http://go.unimelb.edu.au/gxt6>.
- Check out the advice on the Graduate Research Hub: <http://go.unimelb.edu.au/79u6>.
- Book in to an academic skills workshop: <http://go.unimelb.edu.au/6ht6>.
- Investigate GSA's study skills workshops: <http://go.unimelb.edu.au/2nu6>.

If you need to resolve an issue...

- Find out what to do if you're having problems with your supervisor: <http://go.unimelb.edu.au/39u6>.
- Speak with your faculty's academic support team for general advice about issues with your research.
- Learn how to escalate your concerns or lodge a formal grievance with the support of UMSU Advocacy: <http://go.unimelb.edu.au/sq3a>. (For issues with the University, UMSU advocacy has specialists trained to support graduate students.)

If you need a community...

- Investigate Grad Groups in your faculty or interest areas: <http://go.unimelb.edu.au/rz56>.
- Join the Graduate Researcher Network in-person: <http://go.unimelb.edu.au/aku6>.
- Join the Graduate Researcher Network on Facebook: <http://go.unimelb.edu.au/6ku6>.
- Join RezBaz and attend their events: <http://go.unimelb.edu.au/x3u6>.
- Participate in conversations via GradSpace: <http://go.unimelb.edu.au/r3u6>.

If external factors are impacting your studies...

- If your external factors are ongoing, such as a chronic health condition, disability or religious requirement, you may be eligible for ongoing support via Student Equity and Disability Support: <http://go.unimelb.edu.au/c346>.
- Check the student services directory for further support: <http://go.unimelb.edu.au/qsm6>.
